

Position: Medical Laboratory Technician

Company: Wren Laboratories LLC

Submit CV & Cover Letter to: info@wrenlaboratories.com

Job Type: Full time

Location: Branford, CT

- **Company Profile:** Wren Laboratories is a molecular biology-based clinical testing facility (CLIA 07D2081388, Connecticut Department of Health CL-0704) and research facility located in Branford, CT. Our DNA is the development and testing of state-of-the-art blood based molecular assays for cancer. We have also established a saliva-based test for SARS-CoV-2 (COVID-19) and have several EUAs for this diagnostic. We are a team of motivated individuals and are looking for a professional, motivated, and organized individual who is willing to learn and grow with us as we move forward.

Essential Functions:

- Learn, execute various molecular-based assay protocols for clinical testing. Troubleshoot problems and work on measures for continuous improvement.
- Understand and analyze quality control methods used in clinical testing.
- Make observations, analyze data, and interpret results.
- Keep proper records and a well-documented laboratory notebook.
- Follow good laboratory practices and attain and maintain-state based (CLIA) standards for clinical testing.
- Support all laboratory functions including preparing reagents and general housekeeping of laboratory space, resources and equipment.
- Maintain a positive, professional and safe work culture and environment.

Skills/Requirements:

- Medical Laboratory Technician certification or BS in Molecular Biology/Biochemistry or related discipline with 1-3 years' experience preferred. Recent graduates will be considered as training will be provided.
- Hands-on experience with molecular biology techniques including PCR, qPCR, DNA and RNA isolation, and good sterile techniques would be useful.
- Strong organizational and communication skills,
- Attention to detail and maintain a high standard of work
- Ability to follow instructions and work well in a team environment.
- Good time management skill and a “can-do” attitude
- Reliable and flexible to work evening shifts and weekends.

Wren Laboratories is an Equal Opportunity Employer
